MAY 15-18, FIERA DI VICENZA  
BOOTH TH 122

### TESTO DESCRITTIVO

Sisma will attend Origin Passion and Beliefs 2015, where the front-runners of fashion meet the experts in Italian Manufacturing.

The fair will be held in Vicenza (Italy) from the 15th until the 18th of May; come and visit us at our booth TH122!

In this context of strong innovation Sisma will present MYSINT 100, a 3D metal printer based on the "Laser Metal Fusion" technology of both precious and non-precious powder. This machine opens up to new, exciting scenarios in the production of jewelry and fashion accessories: starting from a digital file LMF technology allows a flexibility and a creative freedom that are simply extraordinary, with production times drastically reduced compared to traditional techniques.
