

AITA

**Italian Association
of Additive Technologies**

An association to

- ▶ gather all the stakeholders in the frame of the additive technologies:
 - machines/industrial companies
 - manufacturers, importers, direct users, service centers
 - companies connected (but not directly involved) to the additive technologies sector
 - i.e. end-users, ICT suppliers, ecc.
 - research centres, universities, public authorities and government bodies
 - working on connected aspects (RTDI, fundings, etc...)
- ▶ carry out transversal actions and collect shared information

MISSION

- ▶ to highlight this emerging sector coherently with its role in mechanical manufacturing
 - ▶ to carry out activities related to research and innovation
 - ▶ to create competitive advantage and «push» the industrial application of industrial technologies
 - and their connection to the other mechanical manufacturing processes
- 

AREA OF ACTIVITY

- ▶ The basic ALTA activities deal with
 - Standardization
 - Communication and Promotion
 - Training
 - Research and Development
 - Events and exhibitions
 - Other topics suggested by the board of directors
- 

TYPOLOGY and STRUCTURE

▶ Cultural Association

- with its own statute and business name
 - to be defined in the course of the activities
- open to all the players and the additive and related technologies «experts»
 - research and development activities and ancillary technologies are included

LOCATION and COSTS

- ▶ For the first year, there will be no costs
- ▶ At the beginning, all the activities will be hosted and supported by UCIMU–SISTEMI PER PRODURRE
- ▶ AITA can make full use of the CECIMO's network and services for the sector of Additive Manufacturing
 - Thanks to UCIMU membership of CECIMO, the European Association representing the metal Additive Manufacturing Industry in Europe

INCORPORATORS

- ▶ AVIO AERO
 - ▶ Mr. CORRADO DOGGI
 - ▶ EOS
 - ▶ Mr. FABRIZIO ROSA
 - ▶ LOSMA
 - ▶ MARPOSS
 - ▶ MECCATRONICORE
 - ▶ OMERÀ
 - ▶ POLITECNICO DI MILANO
 - ▶ PRIMA INDUSTRIE
 - ▶ RENISHAW
 - ▶ RIDIX – CONCEPT LASER
 - ▶ UCIMU–SISTEMI PER PRODURRE
- 

MEMBERS

- ▶ Who can be member of AITA?
 - **Persons**
 - whose technical/scientific background or professional activities match the Association goals and contribute to its development
 - **Companies, Universities, other organizations**
 - interested and contributing to the Association goals/activities or planning involvements in business related to Additive Technologies and their applications

MEMBERS

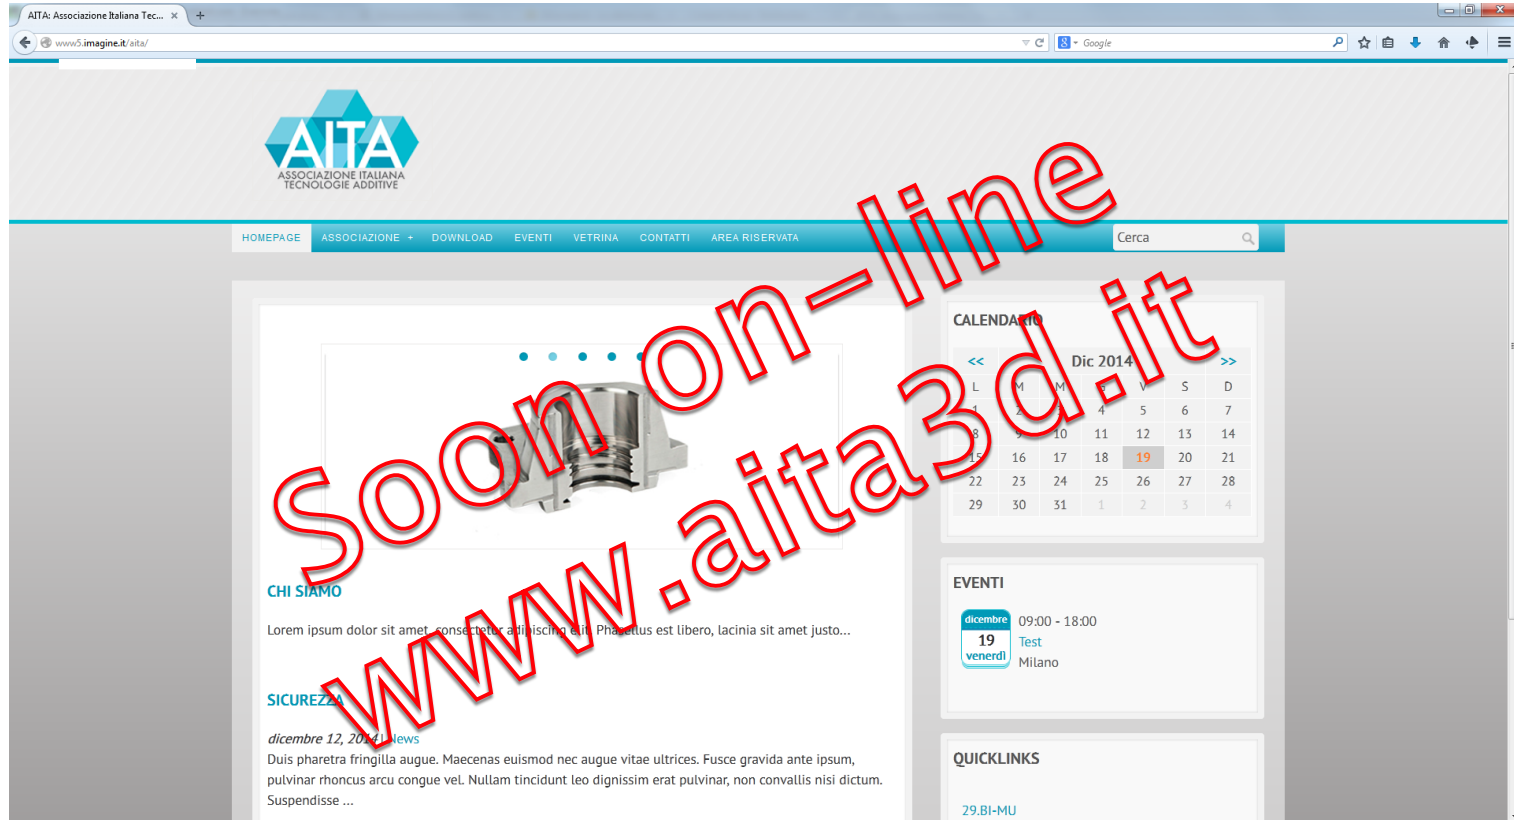

- ▶ From January 2015 on, AITA will accept new members
 - Already received some expressions of interest from
 - Companies (machines manufacturers/importers and end-users)
 - Universities and Research Centers
 - Other Organizations

EMO MILANO 2015

- ▶ the world machine tool exhibition focused on metalworking (fieramilano, October 5–10, 2015)
- ▶ ca.1.600 exhibitors and 150.000 visitors from 100 countries expected
 - <http://www.emo-milano.com/en/home/>
- ▶ dedicated area for additive technologies
 - machines
 - finished products for the world of mechanics
 - meetings, cultural moments, specific workshops
