FORWARD

Online - November 17th 2020

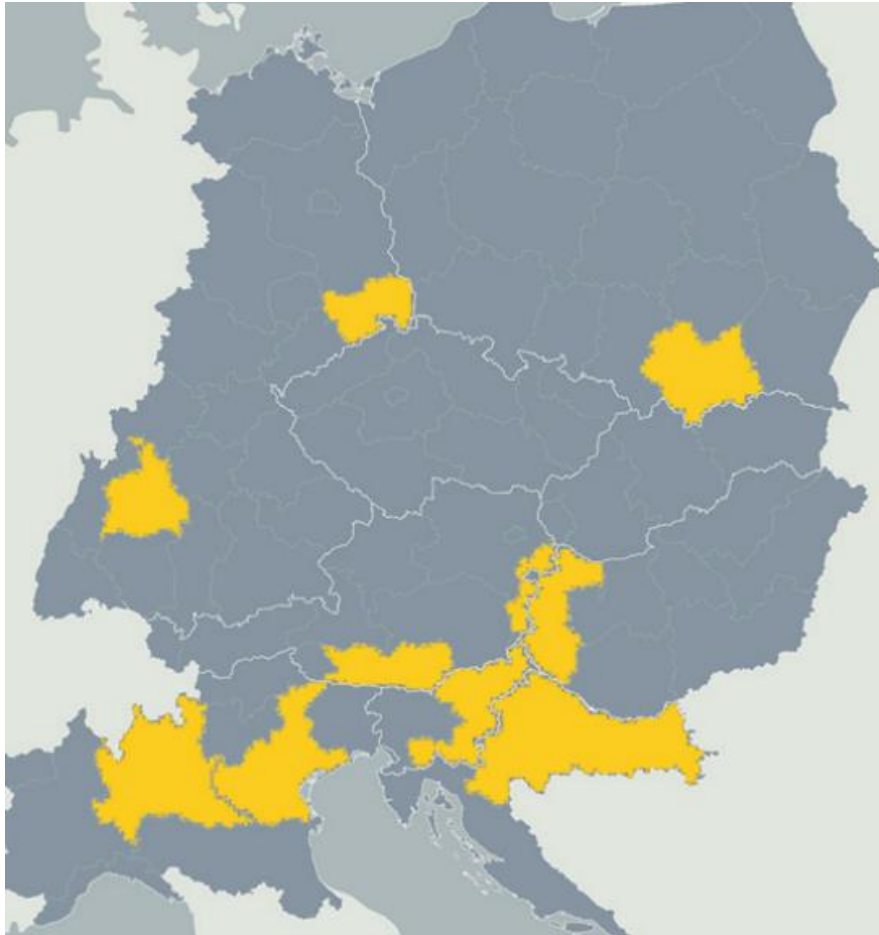

Introduction to the project

Valerio Pesenti - Consorzio Intellimech

Partnership

Challenge

To build competences of regional DIHs in Central and Eastern Europe by exchanging experience and good practices between project partners

Goal

- Generating a common transnational support structure
- Based on a model of Digital Innovation Hubs
- Create stronger links between RIS3 stakeholders
- Promote stronger, strategic collaboration between these institutions

Bridging this landscape...

Champions

Organisations
(SME, LE, RTD)
“best – in – class”

Constellations of Excellence

A network of
champions connected

Transnational actions

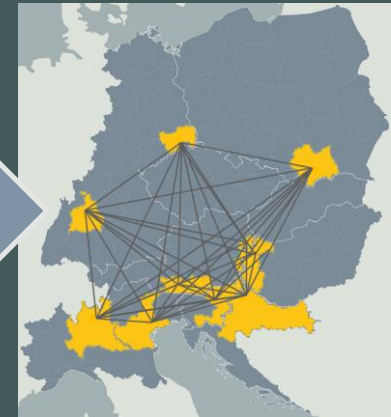

Constellation of RIS3 Excellence

European initiatives promoting enhanced competitive advantage

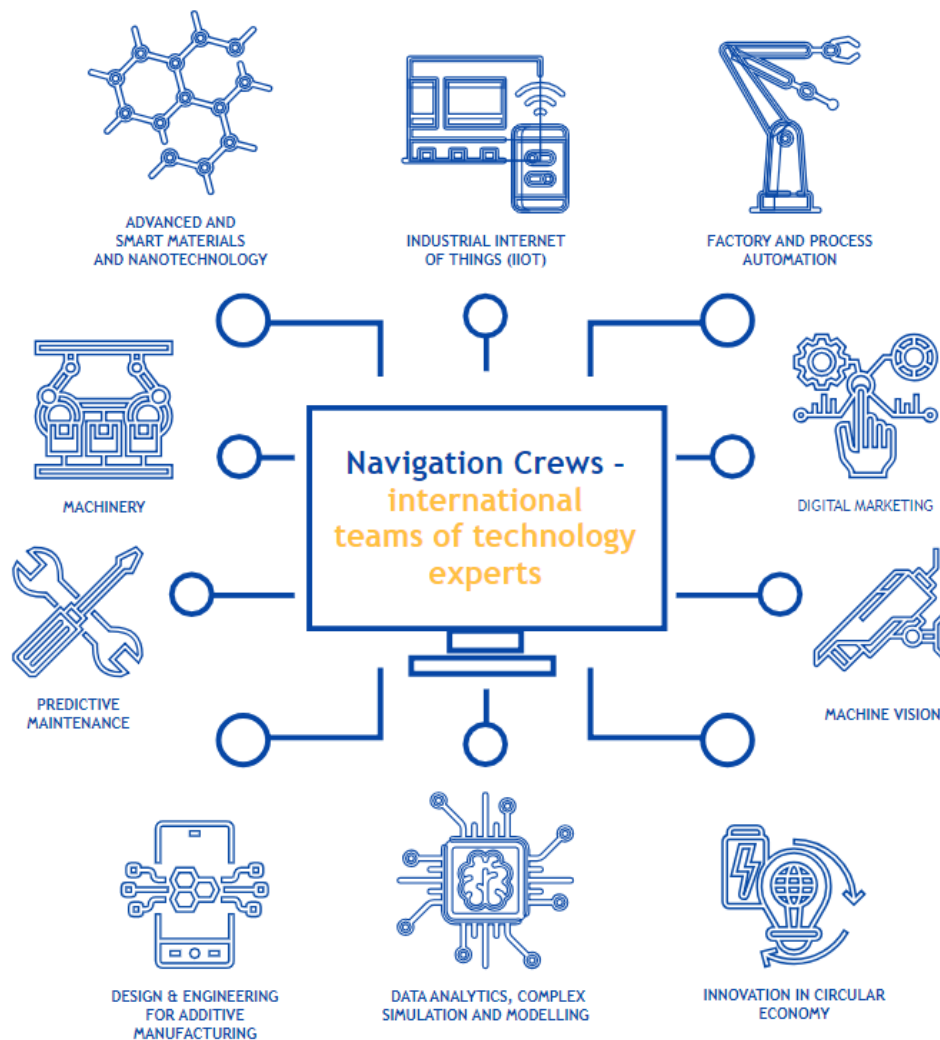

A connected network of digital innovation hubs

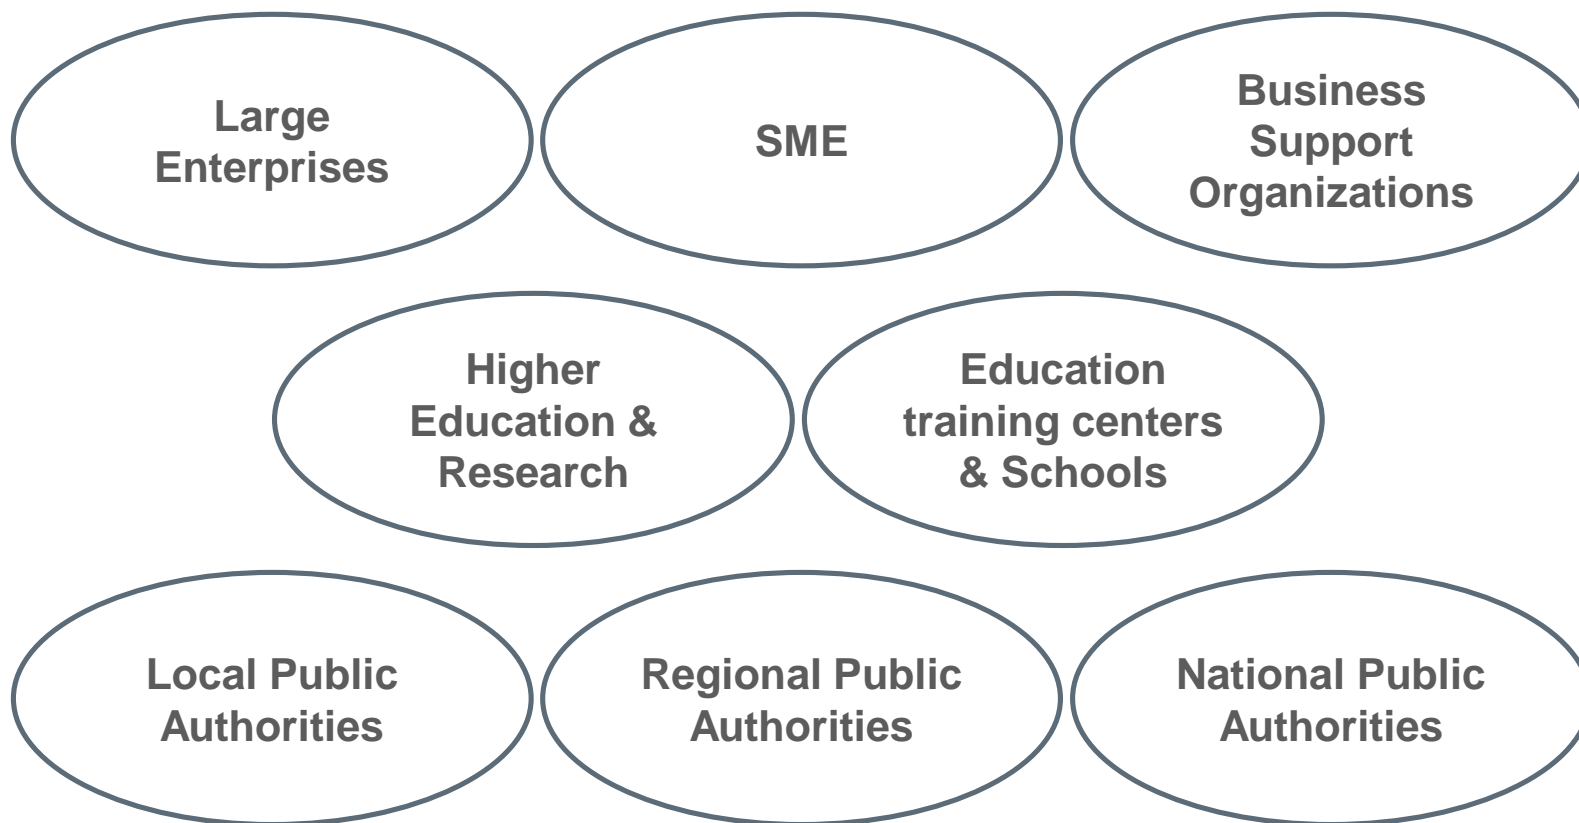

“The Best of...”
Your region’s smart specialisation “champions”

Main topics

Target groups

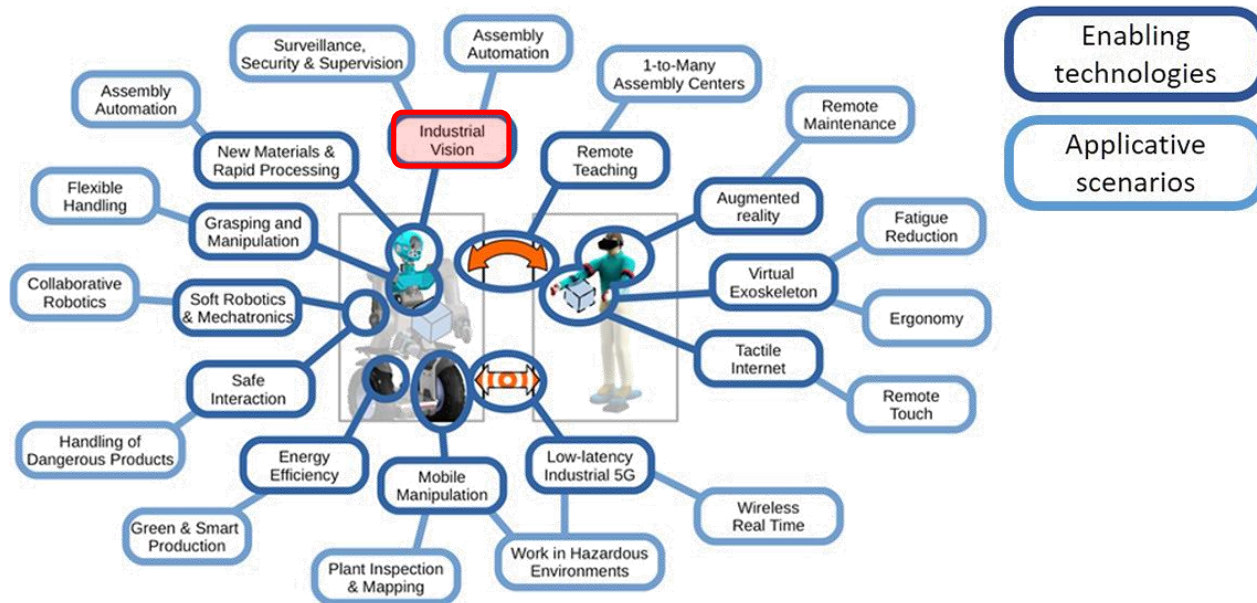

PARTNERED BY

Take the most advanced AM technologies and enhance them in contexts of industrial and productive use of the "Bergamo System"

Take the most advanced IIT technologies and enhance them in contexts of industrial and productive use of the "Bergamo System"
